

Media Contact Advisory
March 2, 2010

Because of the provincial investigation and underlying issues, Hôtel-Dieu Grace Hospital, Leamington District Memorial and Windsor Regional are naturally receiving a high volume of media calls.

The three hospitals are working together in the review, cooperating with the experts appointed by the ministry, and also want to ensure a coordinated, timely and accurate response to media, since that information ultimately helps provide information to patients and the community.

Accordingly, the hospitals have asked Kim Spirou at Hôtel-Dieu Grace Hospital to be the contact on media inquiries related to the surgical errors and pathology review that the hospitals are undertaking, and for inquiries relating to the ministry's investigation. Inquiries will then be directed to the appropriate hospital or individual to speak to the specific inquiry and respond.
